How to Download an App for Apple

In order to download an app on your Apple device, you need an Apple ID.

With your Apple ID and password, you can head over to the App Store to get started.

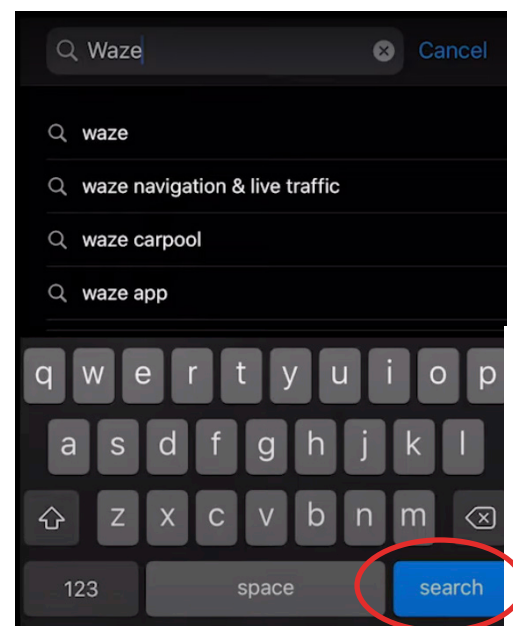

You may also want to watch the video **Download an App (iOS)**. The steps for downloading any app are the same. Find the video at the following site: seniorplanet.org/capitalone.

1 Tap the **App Store** to open it.

2 Use the search bar to search for an app. Let's search for the Waze app. As you type, you'll see a list of suggestions under the search bar. You can tap one of those or continue typing, then tap **Search**.

- 3 Your search results may include several apps. Verify which app you want to download by checking the name and logo. It's usually among the first 1-3 results.

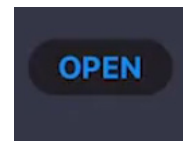

When ready, tap **Get** to begin downloading the app.

- 4 A blue circle will appear to show the download progress.

- 5 Tap **Open** or return to the home screen by tapping the home button.

- 6 To find the app's icon on your homescreen, you may have to swipe to the left to the next screen.

If you see this symbol  it means that the app has been installed and then uninstalled on your device in the past. Simply tap the symbol to download it again.
