

Lighting & Smart Bulbs

Lighting Basics

- LEDs offer the best value for your money
- LEDs have the least impact on the environment
- Incandescents are less efficient and will cost you more than LEDs
- CFLs are less efficient than LEDs and are the least environmentally friendly

Lumens vs Watts

- Lumens measure brightness
- Watts measure energy use
- Lower Kelvin number is warmer light
- Higher Kelvin number is cooler light

Smart Bulbs

- Control lights through app
- Compatible with Alexa & Google Home
- Control lights with your voice when paired with smart home hub

ENERGY STAR Bulbs

- Use up to 90% less energy
- Last up to 15 times longer
- Produce 70-90% less heat
- Save approx \$55 in energy costs over the lifetime of the bulb
