

Introduction to Nextdoor

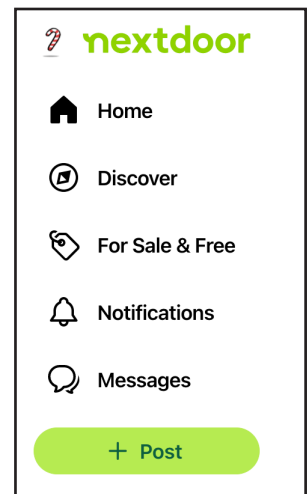

nextdoor

What is Nextdoor?

- A free app that connects people in nearby neighborhoods with each other as well as with local businesses and public services
- Strives to help neighbors develop trust and real-world connections
- Launched in 2011, and now exists in 11 countries with over 70 million users in 290,000 neighborhoods
- Common uses include sharing news and events, looking for recommendations, asking for help, finding lost pets, and more!

Features

- Home page shows a newsfeed with posts from neighbors
- Search for local groups, events, and businesses
- Create a post to ask a question or share information
- Interact by liking, reacting, commenting, and sharing
- Send direct messages to other users
- Buy and sell items, or give away/find free items
- Get notifications about activity on the app
- Use the **Help Map** to ask for help or offer help to neighbors

Privacy Settings

- Adjust the settings to control who sees what
- Limit the app's ability to track your activity on other apps and websites

Best Practices & Safety

- Be kind and respectful
- Follow the Community Guidelines
- Never give out personal information such as bank account information or your social security number
