

Online Health Resources

Why Use the Internet for Health Resources?

- Quickly find basic information
- Be empowered to ask your doctor the right questions
- Learn more about a health condition a loved one is experiencing

Questions to Ask when Evaluating Information

- Who wrote the information? Is the person / organization reputable?
- Does this person / organization have an agenda?
- Are they trying to sell a product?
- Is it a .com, .gov, or .org?
- Is the information up-to-date?
