

Affordable Home Internet

What Can I Do on the Internet?

- Bank online
- Schedule doctor's visits
- Easily comparison shop
- Play games
- Use social media
- Video chat
- Work remotely
- And much more!

How Do I Connect?

- ISP: Internet Service Provider (Examples: Spectrum, AT&T, Comcast)
- ISP ► Modem/Router ► Wi-Fi ► Device
- Fiber, cable, and wireless connections: available in cities and suburbs
- Satellite, DSL, mobile broadband (with hotspots): options for rural areas
- Compare plan details and choose one that best suits your needs.

Finding Low-Cost Internet Plans

- Visit [EveryoneOn.org](https://www.everyoneon.org) to search for reduced cost plans and check eligibility requirements.
- Examples of low-cost plans include: [Access from AT&T](#), [Cox ConnectAssist](#), [Optimum Advantage Internet](#), [Xfinity Internet Essentials](#)
- Monthly costs range from \$10 to \$30.
- The FCC's [Lifeline](#) program provides a discount for phone or internet service (based on income).
